

Product description

The Service is intended for Customers who require hosting of their server in a secure computer room with permanent reliable Internet connectivity. The Customer is responsible for management of the operating system and applications on their Customer Equipment unless otherwise negotiated (SafeNZ can supply, setup and support Linux and Windows servers and firewalls if desired). Air-conditioning and UPS power is included. SafeNZ operates a high security underground computer facility in Napier and this is the primary co-location computer room that SafeNZ offers co-location facilities at. SafeNZ has a policy of peering at Public peering exchanges to ensure the best possible network performance.

Support Details

During working hours basic hands on support will be available at no charge to The customer (not exceeding 2 hours per month, \$80/hour after 2 hours). Outside of working hours there is a \$120/hour charge (3 hour minimum callout charge).
